Pinch Me: Barenaked Ladies

```
<F       G                C >
It's the perfect time of year
<F             G                    C>
Somewhere far away from here
<F       G             C>
I feel fine enough I guess
<F        G                    C>
Considering everything's a mess
<F             G                  C>
There's a restaurant down the street
<F             G                 C>
Where hungry people like to eat
<F             G                 C>
I could walk but I'll just drive
 <D                   F               G>
It's colder than it looks outside
```
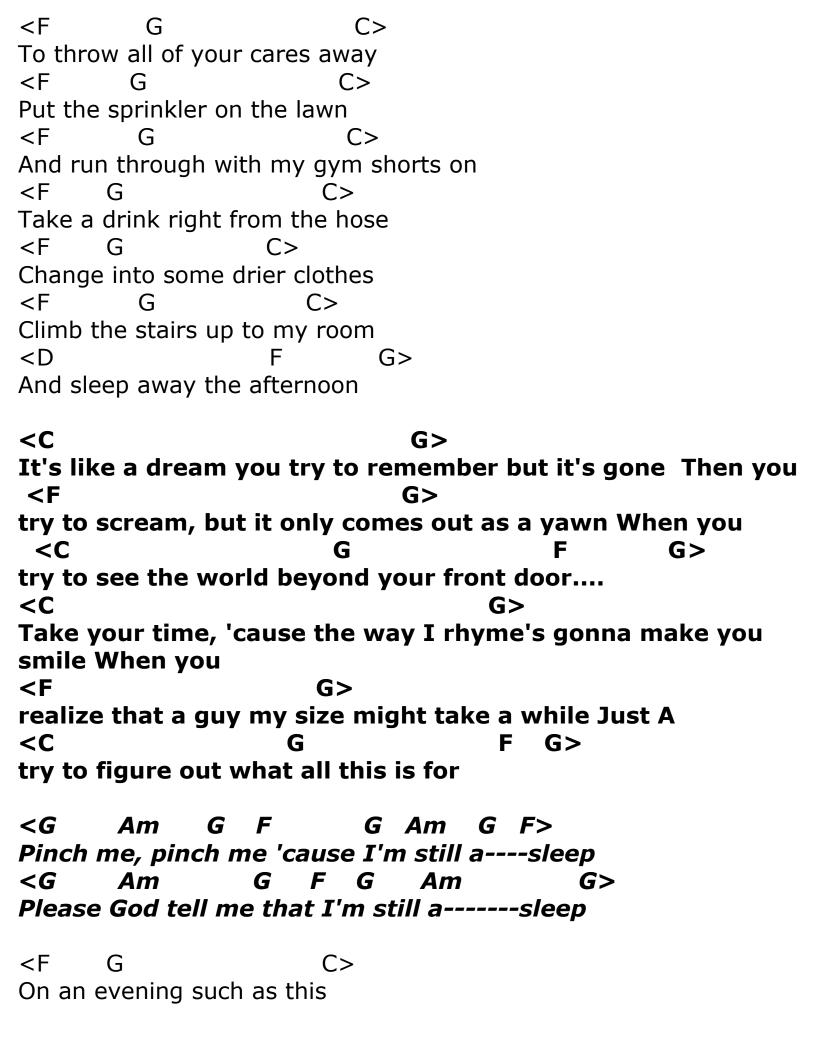

Chorus

```
<C                               G>
It's like a dream you try to remember but it's gone  Then you
 <F                             G>
try to scream, but it only comes out as a yawn When you
  <C                    G                F      G>
try to see the world beyond your front door....
<C                                   G>
Take your time, 'cause the way I rhyme's gonna make you
smile When you
<F                         G>
realize that a guy my size might take a while Just A
<C                      G                F    G>
try to figure out what all this is for
```

```
<F      G                 C>
It's the perfect time of day
```

```
<F        G                    C>
To throw all of your cares away
<F        G                 C>
Put the sprinkler on the lawn
<F        G                    C>
And run through with my gym shorts on
<F      G                  C>
Take a drink right from the hose
<F       G            C>
Change into some drier clothes
<F         G              C>
Climb the stairs up to my room
<D                        F         G>
And sleep away the afternoon
```

```
<C                                      G>
It's like a dream you try to remember but it's gone  Then you
 <F                              G>
try to scream, but it only comes out as a yawn When you
  <C                     G                    F        G>
try to see the world beyond your front door....
<C                                    G>
Take your time, 'cause the way I rhyme's gonna make you
smile When you
<F                      G>
realize that a guy my size might take a while Just A
<C                  G                  F   G>
try to figure out what all this is for
```

```
<G      Am     G  F       G  Am   G  F>
Pinch me, pinch me 'cause I'm still a----sleep
<G      Am        G    F  G   Am           G>
Please God tell me that I'm still a-------sleep
```

```
<F      G                   C>
On an evening such as this
```

```
<F       G                        C>
It's hard to tell if I exist
<F             G                  C>
  If I pack the car and leave this town
<F       G                  C>
Who'll notice that I'm not around?
<F       G                  C>
I could hide out under there
<F       G                  C>
I just made you say underwear
<F       G                  C>
I could leave, but I'll just stay
<D                        F          G>
All my stuff's here anyway
```
